EEACS Families,

As you are aware, EEACS operates a 1:1 device student program, allowing every student access to a Chromebook to enhance learning and access resources that might not otherwise be available.

As we prepare for the upcoming 2025/26 school year, we have decided to offer students an Optional Chromebook Protection Plan in the hopes to lighten the burden when accidents occur.

The 2025-26 Optional Chromebook Protection Plan provides coverage for accidental damage including, but not limited to cracked screens, broken/lost keys, cracks in the device casing, port damage, webcam damage, liquid damage, and mousepad damage. The annual cost to enroll is \$25 per device.

- There is a family cap for the cost of the Optional Chromebook Protection Plan of \$60. For example, if you have four children, the max payment is \$60, and ALL children are covered in the Optional Chromebook Protection Plan for your family.

The Chromebook Protection Plan does not cover lost or stolen Chromebooks, intentional damage, or tampering. It also does not cover stolen, lost, or damaged power adapters.

We strongly encourage you to consider this insurance to safeguard against potential damages and ensure a smooth school year for your child.

Any purposeful damage will be classified as vandalism. Students will be billed for repairs caused by vandalism, and disciplinary action will be taken regardless of whether insurance was purchased or not.
